Louise Marshall Hospital | Palmerston & District Hospital

## WHY become a Board Member?

Well, we get asked this question a lot. Instead of giving you an answer – we will ask you a few questions. Do you use your local hospital? Do you care about the quality of care our residents receive? Do you want to make sure your hospital remains vibrant in five, ten, fifteen (you get the drift) years? Do you want to expand your network? Well, if you answered yes to all of the questions - we think you have your answer.

## What type of SKILLS do you need to become a Board Member?

We are looking for a variety of skill mix. If you have expertise in financial, redevelopment, legal, risk management, IT or strategic planning – great. We are also always looking for people who have a passion for improving the quality of care in our hospitals. If you are not sure you have what it takes or if your awesomeness will be helpful– give us a call. You may be surprised!

## How much TIME would you need from me?

Two to three times a month there are meetings. Meetings can be up to four hours in length. FYI - we have really, really comfy boardroom chairs and there is food too.

## Where could I help?

Here is list of “some” of the great work we do – don’t be frightened off with titles, hospitals love to use BIG words (with lots of acronyms LOL), we will help you to learn as you go:

Safety, Quality, Performance, Improvement  
Committee (improving the care patients receive)

Resources Committee (spending our \$\$\$ wisely,  
ensuring we remain an awesome place to work)

Building Committee (the bricks and mortar stuff)

IT Sub-Committee (adoption of new technology –  
speaks to the inner Geek in all of us)

Governance Committee (all the legal stuff, as well  
as our important partnerships)

## How do I become a Board Member?
